BLENDING INTERVENTION APPROACHES IN CHILDREN WITH DEVELOPMENTAL DISABILITIES

Sydney 25 – 26 OR 26 – 27 November (venue and dates to be confirmed)
Melbourne 29 – 30 November at the CAE, 278 Flinders Lane

Presenter: Mary Hallway* OTR/L(USA), NDTA Occupational Therapy Instructor

This workshop will focus on clinical reasoning and problem solving to identify functional movement and sensory processing problems and associated impairments in children with developmental disabilities. Practical tools will be introduced to analyze functional performance problems and appropriate application of interventions. Considerations for blending or not blending approaches such as Sensory Integration, Neuro-Developmental Treatment, Motor Learning as well as other approaches will be discussed. Case studies will be utilized to facilitate clinical reasoning and application of blending interventions to meet the multi faceted needs of children with developmental disabilities.

Prerequisite: This is not an introductory course –some knowledge of SI and or NDT is required.

Audience: This course is designed for Occupational Therapists and Physiotherapists who treat children with neuromotor disabilities and or sensory processing problems of all ages. Course participants must be licensed and or registered to practice in their perspective disciplines.

ABOUT THE INSTRUCTOR:

Mary Hallway, OTR, NDTA Certified OT Instructor, is co-owner of The Children's Therapy Center a private practice in Orange County, CA. She received the Bachelor of Science degree with honors in occupational therapy from Western Michigan University and has over thirty years of experience specializing in pediatrics in medical, educational and community-based settings. She has completed advanced training in both NDT and is SIPT certified. Mary is a certified NDTA Occupational Therapy Instructor. She is an internationally recognized educator, clinician, and consultant who has taught extensively throughout the United States and internationally. She has published several articles including Handling with Care or Handling Carefully in Parent Articles about NDT and has co-authored the book Combining Neuro-Developmental Treatment and Sensory Integration Principles: An Approach to Pediatrics.

Workshop fee $520
